I am ambitious B.Tech student specializing in Artificial Intelligence & Data Science, with strong programming skills in Python, Java, and SQL. Always eager to learn, I excel in both academics and coding. Alongside my technical pursuits, I am dedicated to fitness, aiming to build a strong physique while maintaining a balanced, healthy lifestyle. I am someone who thrives on challenges, whether it's solving complex problems or pushing myself physically, and I am focused on creating a personalized digital presence to showcase my growth and achievements.

Experience

Python Developer Intern

Toshal Infotech, Surat, India

May 2026 – Current

- Developed a **Mini AI Agent** and a **Multi-AI Agent** using the **Google Gemini API**.
- Built and integrated **30+ AI-powered tools** into a web application.
- Developed scalable backend APIs using **FastAPI**.
- Designed interactive user interfaces using **NiceGUI**.
- Designed and managed application databases with **PostgreSQL**.
- Integrated AI capabilities into real-world web applications through API orchestration.
- Collaborated on debugging, feature implementation, and backend optimization.
- Gained hands-on experience in Python backend development, REST APIs, database management, and AI application development.

Freelancer

Maa Durga Security Services, Surat, India

May 2026 – May 2026

Freelance Web Developer | Maa Durga Security Services

- Designed and developed the official website for **Maa Durga Security Services** from concept to deployment.
- Built a responsive, modern, and user-friendly website with a focus on performance and accessibility.
- Implemented service pages, contact forms, inquiry functionality, and professional business branding.
- Optimized the website for SEO to improve search engine visibility.
- Successfully deployed the website with a custom domain and made it publicly accessible.
- Indexed and published the website on **Google Search**, improving the company's online presence.
- Provided ongoing maintenance, bug fixes, and performance enhancements after deployment.
- Managed the complete development lifecycle, including planning, development, testing, deployment, and post-launch support.
